Golf Anywhere

with a Golf Professional

www.golfmadeeasier.de

wir verstehen golf und menschen

Looking for a **Highlight** at **your Event**?

We've got it! **Golf and fun with**

- an Indoor Golf System including a Golf Simulator
- golf equipment
- Professional Coaching for beginners and advanced golfers

A **unique attraction** at your private or company event that

- loosens up the atmosphere
- supports team building experiences
- elevates excitement and makes a lasting impression

How the **Golf Simulator** works:

The player simply hits the golf ball into the impact screen which is also the screen on which the simulation is projected upon from the Beamer.

The Cage construction and hitting area can be set up in an indoor area or tent.

Minimum room requirements: 8m x 5m (height 3,5m)

Golf School

golf made easier

Beginners

The priority here is learning the basics:

- Grip
- Addressing the ball
- Building up the golf swing in stages

The introduction to the golf sport will be made as easy as possible. Our name and motto is „**golf made easier**“

Advanced players

We offer personal and professional coaching, with the support of a video analysis, to make the necessary improvements to the client's golf swing. The video analysis enables the player to see for him/herself making understanding and application clearer.
